

Logging In with "TK Users"

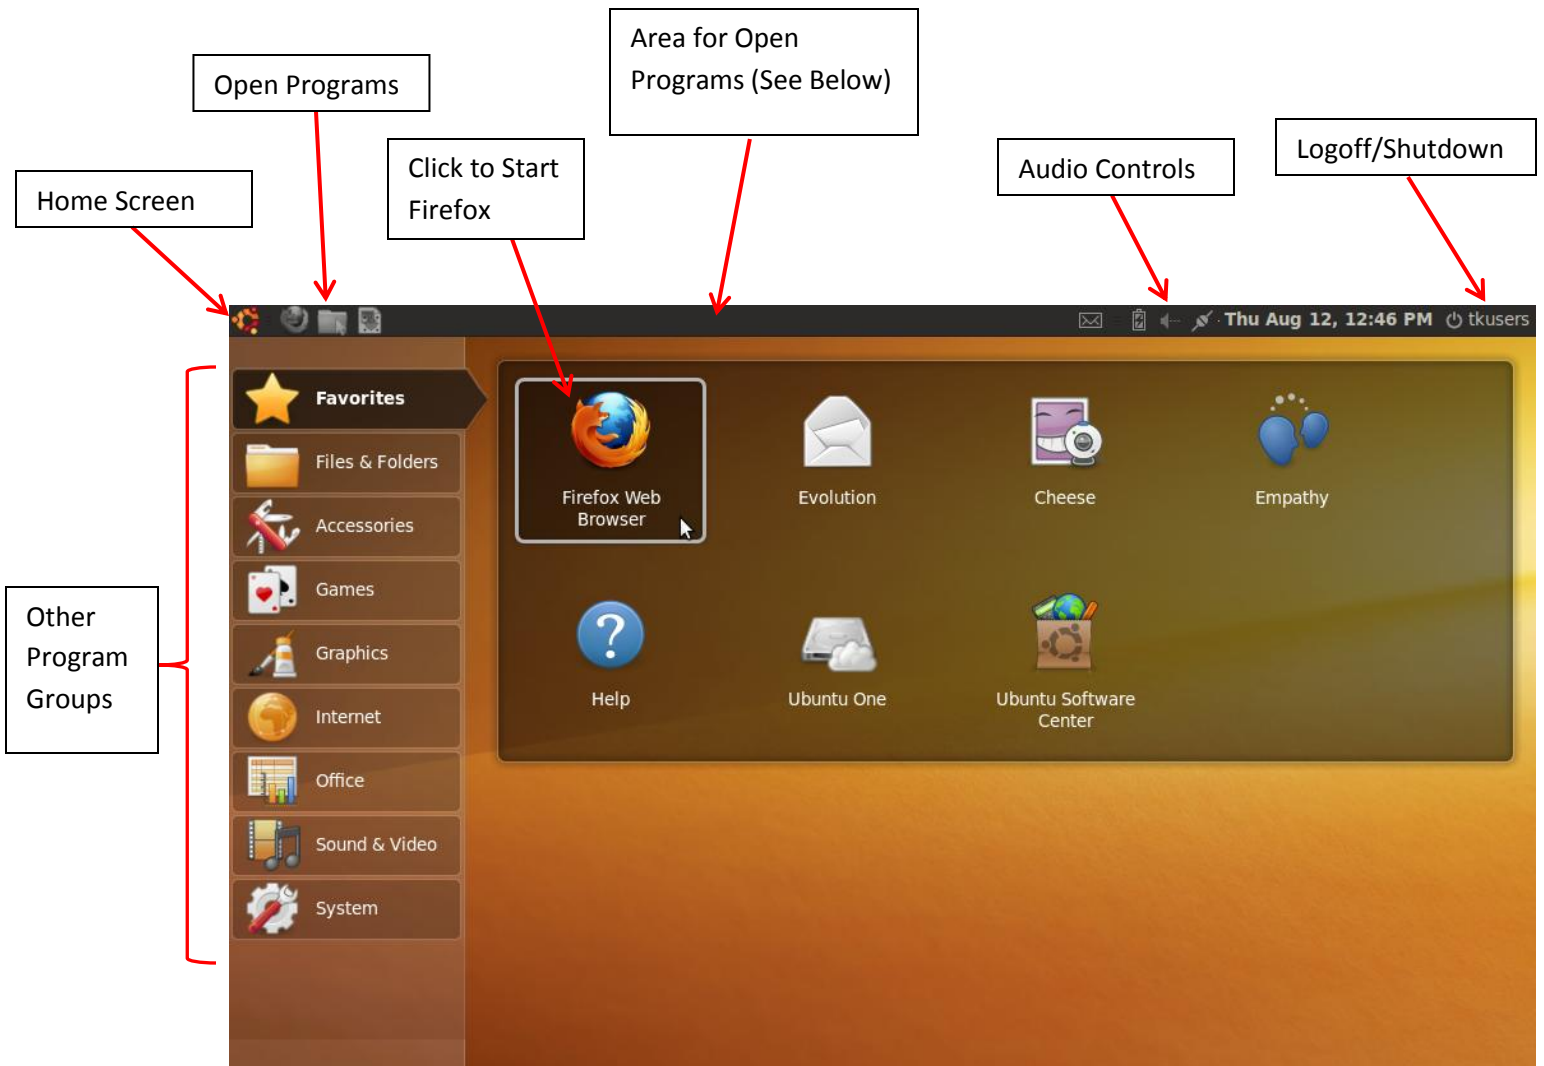

The Netbooks are setup so that **everyone** uses **one account**. The account is the "TK Users" account. To login:

1. Click TK Users
2. Enter the password: school

*** To prevent complications resulting from every user using the same login account, after you logoff or shutdown all settings, documents and web history are deleted.

Linux on the Netbooks

Below is a screen shot showing the desktop of the Netbooks with arrows describing the different parts.

When you have a program open (Like Firefox), it shows in the taskbar like this: Only one open program shows at a time. To switch programs, click the appropriate icon here:
